FOR IMMEDIATE RELEASE

**Plains All American Expands and Extends
Credit Facility and Enters into
Acquisition Bridge Facility**

(Houston — Monday, July 31, 2006) Plains All American Pipeline, L.P. (NYSE: PAA) announced today that it has increased the committed borrowing capacity on its principal revolving credit facility from \$1.0 billion to \$1.6 billion. The credit facility includes a sub-facility for Canadian borrowing that was increased from \$400 million to \$600 million. The amendment increased the aggregate capacity of the facility to \$2.0 billion at the option of the Partnership, subject to obtaining additional commitments from lenders. The amended facility has a final maturity of July 2011. Banc of America Securities LLC and Wachovia Capital Markets, LLC acted as Joint Lead Arrangers and Joint Book Managers on this facility.

In addition, the Partnership entered into a separate \$1.0 billion acquisition bridge facility to finance the cash portion of the Pacific Energy acquisition. The bridge facility is a 364-day facility with a one-year term-out provision and funding will occur commensurate with the closing of the acquisition. Seven financial institutions participated in the bridge facility. JPMorgan Securities Inc. and Citigroup Corporate and Investment Banking acted as Joint Bookrunners and Co-Lead Arrangers. Other agents in the bridge facility include Bank of America, N.A., Wachovia Bank, National Association, and UBS Securities LLC.

“We are pleased by the strong show of support from our bank group” said Al Swanson, Vice President — Finance and Treasurer of the Partnership. “These financing activities mitigate financing risks associated with the Pacific Energy acquisition and are consistent with the Partnership’s commitment to maintain strong liquidity and financial flexibility.”

Plains All American Pipeline, L.P. is engaged in interstate and intrastate crude oil transportation and crude oil gathering, marketing, terminalling and storage, as well as the marketing and storage of liquefied petroleum gas and other petroleum products, in the United States and Canada. Through its 50% ownership in PAA/Vulcan Gas Storage LLC, the Partnership is also engaged in the development and operation of natural gas storage facilities. The Partnership’s common units are traded on the New York Stock Exchange under the symbol “PAA.” The Partnership is headquartered in Houston, Texas.

Forward Looking Statements

Except for the historical information contained herein, the matters discussed in this news release are forward-looking statements that involve certain risks and uncertainties that could cause actual results to differ materially from results anticipated in the forward-looking statements. These risks and uncertainties include, among other things: the success of our risk management activities; environmental liabilities or events that are not covered by an indemnity, insurance or existing reserves; maintenance of our credit rating and ability to receive open credit from our suppliers and trade counterparties; abrupt or severe declines or interruptions in outer continental shelf production located offshore California and transported on our pipeline system; declines in volumes shipped on the Basin Pipeline, Capline Pipeline and our other pipelines by us and third party shippers; the availability of adequate third party production volumes for transportation and marketing in the areas in which we operate; demand for natural gas or various grades of crude oil and resulting changes in pricing

conditions or transmission throughput requirements; fluctuations in refinery capacity in areas supplied by our transmission lines; successful integration and future performance of acquired assets or businesses and the risks associated with operating in lines of business that are distinct and separate from our historical operations; unanticipated changes in

crude oil market structure and volatility (or lack thereof); the impact of current and future laws, rulings and governmental regulations; the effects of competition; continued creditworthiness of, and performance by, counterparties; interruptions in service and fluctuations in rates of third party pipelines; increased costs or lack of availability of insurance; fluctuations in the debt and equity markets, including the price of our units at the time of vesting under our Long-Term Incentive Plans; the currency exchange rate of the Canadian dollar; the impact of crude oil and natural gas price fluctuations; shortages or cost increases of power supplies, materials or labor; weather interference with business operations or project construction; general economic, market or business conditions; and other factors and uncertainties inherent in the marketing, transportation, terminalling, gathering and storage of crude oil and liquefied petroleum gas discussed in the Partnership's filings with the Securities and Exchange Commission.
